FLANIGAN-PEARSON CO., PRINTERS AND BINDERS

Champaign Illinois

INTRODUCTORY

The publishers have taken the greatest care to make this—the 1918 Champaign-Urbana City Directory—a standard book of reference, of particular use and interest to the public in general.

You will notice the indexing, different grouping and classification of the Miscellaneous Directory, a new section devoted to the University of Illinois and the marking of intersections in the Street Directory.

These additional features are embodied in this issue to make the information more accessible and a true guide to the cities, their people, government, organizations and societies.

War conditions have altered, somewhat, the factors that govern the development of Champaign and Urbana, yet an actual count reveals a population of 28,816, which is a gain of over 30% since the Government census of 1910. 3687 of these are students registered at the University of Illinois [The normal enrollment at Urbana is more than 5600.]

The unusually large proportion of beautiful residences in the Twin Cities, probably indicates the character, strength and stability of the community, better than any other one thing.

This fact, together with the transportation facilities, superior educational and other advantages should be a deciding factor for the home-seeker, the investor and industries considering a location.

The presentation of this work affords the publishers a great deal of pleasure and we wish to express our appreciation of the assistance given in its preparation and especially our patrons, whose hearty support has made the undertaking possible.

We are also confident this issue will prove satisfactory and open the way for issues to come.

Respectfully,

Clark-Elwell Co., Publishers

Copies of This Directory
May be Purchased of
Flanigan-Pearson Co.,
The Co-Op, or
Clark-Elwell Co., Publishers

P. O. Pox 224, Champaign, Ill.

Five Reasons For Directory Advertising

1—Because the directory will bring the advertiser in touch with the entire population.

2—Because directory advertising is recognized as the most effective and least expensive of any method of reaching all the people all the time.

3—Because the directory is issued only once a year and your expenditure is based on advertising to cover the entire time.

4—Because the directory circulates generally among all the people, although it may not be in use in all the homes, yet every member of every home uses the directory in the nearest store or office or factory, almost daily.

5—Because the directory is a credit boost to a community because everybody is interested and represented in it.

If you want to buy and buy with ease,
Come to the store that tries to please.
Come as often as you may,
And always remember, we will do what we say.
Our stocks are large, our prices are small,
And if you will come, we will try and please all.

We buy and sell new and used furniture, stoves and rugs, etc.

Cash or Payments

Classified Business Directory Champaign-Urbana Illinois, 1918

All Firms, Professional and Business Men are classified under their principle business headings. One heading is information, more than one heading is advertising and is paid for accordingly.

Be sure you are properly classified under all the different headings that apply to your business.

TYPEWRITERS REPAIRED

The reason we have overhauled and repaired more typewriters in the past year than ever before, is because of the fact that we have given more satisfaction than ever before. We guarantee promptness and will take care of your every want.

Our mimeographing is also becoming very popular. Prices are right, satisfaction guaranteed.

Champaign, Illinois Street Directory

1918

Neil Street is the dividing line for all streets running East and West.

University Avenue divides the streets running north and south.

Numbered streets (1st, 2nd, 3rd, 4th, 5th and 6th) are shown in numerical order after Wright St.

Even numbers are on the North side of all East and West Streets (except Main St. which has the even numbers on the South side), and the East side of North and South streets.

☞Intersecting streets are shown in light capitals.
